# OUR TECHNICAL SOLUTIONS FOR YOUR HYBRID EVENTS

CONNECTIONS PACKAGE AND PERSONALISED ADVICE

Benefit from tailored services and technical support for your project.

Have you commissioned a technical service provider to obtain support for your hybrid concept?

Our staff will work with you to define the spaces and infrastructure best suited to your concept, and will support you throughout the project to guarantee optimum technical results.

The package includes the following:

- provision of spaces to receive your on-site speakers and participants
- technical equipment and connections necessary for the proper execution of your programme
- provision of COVID solutions for compliance with health requirements
- consulting and technical support adapted to your capture and streaming infrastructure

This solution is what you need if you:

- wish to use your own capture and streaming solution
- wish to receive some of your participants and speakers on site
- are looking for medium-sized spaces that combine comfort and technology for your participants and speakers
- are looking for facilities and technical consulting that can be adapted to your needs and your project

---

ON-SITE AND MEETMEBOX CAPTURE PACKAGE

Offer a harmonious solution for recording your on-site speakers and those who have stayed at home.

Ask our technical staff to record your speakers on site; they will provide you with the audio and video streams that you can incorporate into your broadcasting platforms. Using MeetmeBox, your speakers in remote locations will be given a kit of professional equipment including a camera, lighting, a meter and a banner in your colours, to allow them to make a high-quality remote presentation very easily on their own.

The package includes the following:

- provision of spaces to receive your on-site speakers and participants
- technical equipment and connections necessary for the proper execution of your programme
- provision of COVID solutions for compliance with health requirements
- capture of speakers present on the site
- sending of the capture kit (MeetmeBox) to remote speakers (remote support included)
- provision of audio and video streams for your online streaming platform

This solution is what you need if you:

- have a platform for streaming content but want support for capture
- wish to include on-site and remote speakers into your programme
- wish to receive some of your participants on site
- are looking for medium-sized spaces that combine comfort and technology for your participants and speakers

OUR TECHNICAL SOLUTIONS FOR YOUR HYBRID EVENTS

HYBRID CONFERENCE PACKAGE

Create your own video studio and offer your participants a unique experience, whether they are in Beaulieu or anywhere else in the world. A tool that will make your webinars stand apart from the others!

With the flexible "All in One (AIO)" platform, you can create a unique integrated experience in the colours of your corporate graphics. The platform can allow the live transmission of on-site sessions, and at the same time include remote speakers.

The many interactive functions (chat, polls, questions, etc.) offer an engaging experience from start to finish, regardless of the session format (panels, keynote speech, interview, etc.)

The package includes the following:

- provision of spaces to receive your on-site speakers and participants
- technical equipment and connections necessary for the proper execution of your programme
- provision of COVID solutions for compliance with health requirements
- a dedicated website with your colours and logo and an online recording tool
- live retransmission of sessions with interactive features incorporating your logo
- on-site and remote video capture equipment and resources
- graphics and content management
- management of simultaneous sessions

This solution is what you need if you:

- do not have a technical concept for video capture
- do not have a content publication platform
- wish to receive local and offsite speakers
- wish to receive on-site and remote participants

and if you are looking for:

- a solution that will manage the virtual participant's experience for you
- a solution that integrates a web experience in line with your image for participants who attend remotely
- a technical solution for live and recorded broadcasting
- a solution that can easily be changed into a 100% virtual solution to handle last-minute changes
- a harmonious high-quality solution for speakers

HYBRID CONFERENCE AND EXHIBITION PACKAGE

Enjoy a 360° interactive experience in a secure and personalised virtual environment!

[c] Artisticco

The hybrid "All in One (AIO)" solution includes the best components of a successful in-person event with interactive content and features that allow participants, speakers and exhibitors to get involved and interact with one another.

AIO merges the technology of live audio and video streams with a captivating digital experience thanks to a secure and fully customisable online platform. The exhibition features of the platform allow the creation of a 100% virtual exhibition that allows sponsors and exhibitors to promote their products with integrated, dynamic and interactive content. Professional exchange is encouraged through interactive avatars and an integrated chat feature.

The package includes the following:

- provision of spaces to receive your on-site speakers and participants
- technical equipment and connections necessary for the proper execution of your programme
- provision of COVID solutions for compliance with health requirements
- a dedicated website with your colours and logo and an online recording tool
- live retransmission of sessions with interactive features incorporating your logo
- on-site and remote video capture equipment and resources
- graphics and content management
- management of simultaneous sessions
- a web-based platform for the exhibition, with no need for downloads or plug-ins

This solution is what you need if you:

- wish to organise an event with several simultaneous sessions and an exhibition
- do not have a technical concept for video capture
- do not have a content publication platform
- wish to receive local and remote speakers
- wish to receive on-site and remote participants

and if you are looking for:

- a solution that will manage the virtual participant's experience for you
- a solution that integrates a web experience in line with your image for participants who attend remotely
- a technical solution for live and recorded broadcasting
- a solution that can easily be changed into a 100% virtual solution to handle last-minute changes
- a solution to integrate sponsors and exhibitors in an interactive manner
- a harmonious high-quality solution for speakers
- a solution for managing commercial prospects and KPI measurement tools
